sprawl is one of the ugliest words in the american political lexicon virtually no one wants america s rural landscapes farmland and natural areas to be lost to bland placeless malls freeways and subdivisions yet few of america s fast growing rural areas have effective rules to limit or contain sprawl oregon is one of the nation s most celebrated exceptions in the early 1970s oregon established the nation s first and only comprehensive statewide system of land use planning and largely succeeded in confining residential and commercial growth to urban areas while preserving the state s rural farmland forests and natural areas despite repeated political attacks the state s planning system remained essentially politically unscathed for three decades in the early and mid 2000s however the oregon public appeared disenchanted voting repeatedly in favor of
